

Erratum

A.T. Natarajan and G. Obe: Molecular mechanism involved in the production of chromosomal aberrations. III. Restriction endonucleases. *Chromosoma (Berl)* (1984) 90:120–127

Due to an unfortunate error the second reference on page 126 was deleted. It should read as follows:

Bryant PE (1984) Enzymatic restriction of in situ mammalian cell DNA using Pvu II and Bam H1: evidence for the double strand break origin of chromosomal aberrations. *Int J Radiat Biol* 46:57–65
