

## *Errata*

### **Sequence of *psi*, a gene on the symbiotic plasmid of *Rhizobium phaseoli* which inhibits exopolysaccharide synthesis and nodulation and demonstration that its transcription is inhibited by *psr*, another gene on the symbiotic plasmid**

**D. Borthakur and A.W.B. Johnston**

John Innes Institutes, Colney Lane, Norwich NR4 7UH, UK

**Mol Gen Genet (1987) 207:149–154**

The final sentence of the Summary should read:

Using gene fusions between *psi* and *lacZ*, it was found that *psr* inhibited transcription of *psi*''.

### **A mutant of *Chlamydomonas reinhardtii* altered in the transport of ammonium and methylammonium**

**A.R. Franco, G. Cárdenas, and E. Fernández**

Departamento de Bioquímica, Facultad de Ciencias, Universidad de Córdoba, E-14071 Córdoba, Spain

**Mol Gen Genet (1987) 206:414–418**

The following reference should be added:

Cullimore JV, Sims AP (1981) Pathway of ammonia assimilation in illuminated and darkened *Chlamydomonas reinhardtii*. *Phytochemistry* 20:933–940
