

## *Errata*

# **Cloning of *Clostridium acetobutylicum* genes and their expression in *Escherichia coli* and *Bacillus subtilis***

**Irène Efstathiou and Nicole Truffaut**

Unité des Anaérobies, Institut Pasteur, 25, rue du Dr. Roux, F-75724 Paris Cedex 15, France

**Mol Gen Genet (1986) 204:317–321**

In the sections headed “Complementation of auxotrophs” and “Transformation of a *Bacillus subtilis* strain for leucine prototrophy” as well as in the final paragraph of the paper,  $\alpha$  isopropyl malate dehydrogenase should read  $\beta$  isopropyl malate dehydrogenase.

Also in the section on “Complementation of auxotrophs”,  $\alpha$  glutamyl phosphate reductase should read  $\gamma$  glutamyl phosphate reductase.
