Persistence of the Synkinetic Patterns of the Cervical Spine

J. Jirout

Department of Neuroradiology, Neurological Clinic, Charles University, Prague, Czechoslovakia

Neuroradiology 18, 167-171 (1979)

Page 170, column 2, paragraph 2, line 10:

'Synkineses' should be replaced by 'kineses'. The line should therefore read
'position and persistence of kineses is practically none'.

Announcements

An *international interdisciplinary symposium* will be held from 24th to 26th March 1980 at the Institute of Radiology of the Medical School of Strasbourg, France. It will be organized under the auspices of the Commission of the European Communities and of the Constitutive Committee of the European Institute of Medicine. The theme will be 'Gliomas'.
