

Corrigendum

1) "Calculation of the asymptotic behaviour of the TDR step response related to the asymptotic behaviour of dielectrics in the frequency domain",

M. J. C. VAN GEMERT and P. BORDEWIJK
 Appl. Sci. Res. **27** (1972) 156

Due to typographical errors all kapital order symbols "O" are incorrectly used. According to the definition, given in ref. [12], small order symbols "o" were meant.

On page 168, in the third line $a_n = \tau_0 - 1$ should read: $a_n = 1/\tau_0$.

2) "On laminar free convection stagnation heat transfer from an isothermal cylinder with internal sources-sinks",

O. A. ARNAS
 Appl. Sci. Res. **27** (1972) 81

Equation (29) in the text, see p. 88, contains a error. It should read:

$$\begin{aligned}
 &0.00120 \delta^8 - 0.019330 \frac{\xi}{(Gr)^{\frac{1}{2}}} \delta^6 + \\
 &+ \left[2.219285 \left(\frac{\xi^2}{(Gr)} \right) - 0.359154 \right] \delta^4 + \\
 &+ 22.043326 \frac{\xi}{(Gr)^{\frac{1}{2}}} \delta^2 + 52.664747 = 0 \quad (29)
 \end{aligned}$$
