Characterization of inverted repeats from plasmid-like DNAs and the maize mitochondrial genome

Carl J. Braun, Paul H. Sisco, Ronald R. Sederoff, and Charles S. Levings III

Department of Genetics, Box 7614, North Carolina State University, Raleigh, NC 27695-7614, USA

In the above article an error was made in Fig. 3. When the figure was prepared, a single base pair was omitted so that the 34 bp repeat contained only 33 bp. The number 30 is also incorrectly positioned over base pair 29. The correct version of Fig. 3 shown below:

The omitted base pair is shown in bold face type.
