Pathogenesis of lupus dermatoses in autoimmune mice

VI. Correlation between positivity of lupus band test and lupus nephritis

F. Furukawa, G. Ohshio, H. Tanaka, T. Nakamura, S. Ikehara, S. Imamura, and T. Hamashima

Departments of ¹Dermatology and ²Pathology, Faculty of Medicine, Kyoto University, Sakyo, Kyoto 606, Japan

Arch Dermatol Res (1986) 278:343–346

An unfortunate error occurred in this article. The sentence reading the “MRL mice used in this experiment were *male* and BXSB mice were *female*” should have been “MRL mice used in this experiment were *female* and BXSB mice were *male*”.
