

## CALL FOR PAPERS

INTERNATIONAL SYMPOSIUM ON HEADBOX FLOWS

June 4-6, 1979

McGill University  
Montreal, Canada

*Theme:* Industrial Awareness of principles, recent developments and characteristics of Modern Headboxes (including diagnostics and troubleshooting)

State-of-the-art and R & D papers are invited from papermachine manufacturers, paper mill personnel, research laboratories and academic research institutions on all aspects of papermachine headboxes. The major objective of this Symposium is to provide an international forum for exchange of topical information on the design principles and operating characteristics of various headboxes with special reference to the role of hydraulics in formation. A number of invited review papers will highlight the program. A book of preprints will be made available. Deadline for abstracts in triplicate: December 15, 1978. Final camera-ready manuscripts due: March 31, 1979. Contact

Dr. A. S. Mujumdar, Program Chairman  
Department of Chemical Engineering
