
SPECIAL ANNOUNCEMENT

Volume 7 of *The Moon* has been planned to honour Professor Harold C. Urey on his eightieth birthday on 29 April, 1973.

Due to a delay in Volume 6, it is expected that the double issue of Volume 7, Nos. 1/2 will appear before Volume 6, Nos. 3/4, which will follow shortly.

JOURNAL OF THE BRITISH ASTRONOMICAL ASSOCIATION

Edited by Colin A. Ronan

The *Journal* contains papers on observational and theoretical astronomy, and on the history of astronomy, besides reports from the Association's observing sections and bi-monthly records of solar activity at visual and radio wavelengths. Recent issues have included: Astronomical Observation Systems by P. B. FELGETT; Air Currents above Mirrors by J. HYSOM; Extreme Declinations of the Moon by G. P. KÖNNEN and J. MEEUS; The Phase Anomaly of Venus by B. H. DAVIES; King Edward VI's Defence of Astronomy by B. HELLYER; Willem de Sitter by W. H. MCCREA.

The *Journal* is published once every two months, each volume beginning in December. Price per issue 65 p (U.S. \$ 2.00); per volume £ 3.50 (U.S. \$ 10.75) from the British Astronomical Association, Burlington House, Piccadilly, London, W1V 0NL.
