

Corrigendum

Tunable picosecond infrared pulse generation with mode-locked cw lasers

I. S. RUDDOCK, R. ILLINGWORTH, L. REEKIE
University of Strathclyde, Department of Physics, Glasgow, UK
Opt. Quantum Electron. **16** (1984) 87–8.

On page 88 the fourth sentence of the second paragraph, first column should read as follows:

Using the refractive index data of [8] the delay is calculated to cause a broadening of ~ 0.3 fs per μm of lithium niobate at $\lambda_{\text{IR}} = 2.5 \mu\text{m}$.
