## **CORRIGENDUM**

Vladimír Skalský, 'A Note on the Problem of Choosing a Model of the Universe, IV', *Astrophys. Space Sci.* **176**, 313–322, 1991.

- (1) On page 318 in line 1 above has to be: from Equation (6).
- (2) On page 318 in line 4 below has to be:  $p = -\frac{1}{3}\varepsilon(0 < \eta \le \eta_{\text{max}})$ .
- (3) On page 320 in line 14 above has to be:  $[t_0, t_{Pl})$ .
- (4) On page 320 in line 19 above has to be:  $p = -\frac{1}{3}\varepsilon$ .
- (5) On page 320 in line 20 above has to be:  $p = \frac{1}{3}\varepsilon$ .
- (6) On page 320 in line 15 below has to be:  $\varepsilon + 3p = 0$ .
- (7) On page 320 in line 1 below has to be:  $(t_0, t_{\text{max}}]$ .
- (8) On page 321 in line 5 above has to be:  $[t_{Pl}, t_{max}]$ .
