

## ERRATA

To 'Interaction Between the Interstellar Medium and the Solar Wind', Max K. Wallis:  
*Astrophys. Space Sci.* **20** (1973), 3–18.

For the cross-sections for elastic collisional interactions quoted in Table I, p. 5 read:

for 'repulsive' collisions<sup>b</sup>,  $\sigma/\text{\AA}^2 = 0.4-1$ ;

for collisional heating<sup>c</sup>,  $\sigma/\text{\AA}^2 = 7$ .

On p. 7,

in Equation (6), for  $s^2 \frac{1}{2} \phi$ , read  $\sec^2 \frac{1}{2} \phi$ ;

in the following two lines, for the factor 4.1, read 4.5;

in Equation (7), for  $-r_0 \phi / p_{\pm}$ , read  $-r_0 \{ \pi_{\mp} (\pi - \phi) \} / p_{\pm}$ .
