Erratum

Stein PSG, Robertson GA, Keifer J, Grossman ML, Berenbeim JA, Lennard PR (1982) Motor neuron synaptic potentials during fictive scratch reflex in turtle. *J Comp Physiol* 146:401–409

The first sentence of the fourth paragraph of the Discussion (p. 407) should read:

The co-activation of HP motor neurons and KE motor neurons during the early A2 phase of the turtle scratch reflex is in contrast to the reciprocal relationship observed between these populations during the flexion reflex demonstrated in the immobilized turtle (Figs. 7 and 8).
