ERRATUM

Matzke, A. et al. (1994) Homology-dependent gene silencing in transgenic plants: epistatic silencing loci contain multiple copies of methylated transgenes Mol Gen Genet 244: 219–229

In Fig. 7c, the "+" sign under <u>"NOS"</u> should be a minus ("-") sign.

Neuhuber, F. et al. (1994) Susceptibility of transgene loci to homology-dependent gene silencing Mol Gen Genet 244: 230–241

The paper cited as "Brussian et al." (pgs. 230 and 240) should read Brusslan et al.

Table 2 legend, footnote b: The first sentence should read: $H_{11/62}$ did not have an intact *K* locus: it was OCS⁻ and Kan^s, and hybridized to a KAN but not an OCS probe (data not shown).
