Bradford W. Berger and Carl A. Friehe, 'Boundary-Layer Structure near the Cold Front of a Marine Cyclone during 'Erica'', *Boundary-Layer Meteorology* **73**, pp. 227-253.

The first line on p. 248 should read:

where $\tau_x = \mu_\epsilon (\partial u / \partial z)$ and $\tau_y = \mu_\epsilon (\partial v / \partial z)$ are the x - and y -components of
