
Erratum

In the paper, "Bimetric Gravitation Theory on a Cosmological Basis"
[Rosen, N. (1978). *Gen. Rel. Grav.*, 9, 339], equation (3.10) is incorrect and
should be replaced by

$$(\kappa T_{\mu}^{\nu} + t_{\mu}^{\nu})_{|\nu} + \frac{1}{16\pi a^2} (g^{\rho\sigma} g_{\mu\rho|\sigma} - g^{\mu\rho} g_{\rho\sigma|\sigma}) = 0 \quad (3.10)$$

The last part of the expression arises from the fact that γ differentiation is not commutative if $1/a \neq 0$.
