## Visual Observation and Optical Cooling of Electrodynamically Contained Ions

*W. Neuhauser, M. Hohenstatt, and P. Toschek*

Institut für Angewandte Physik I, Universität, D-6900 Heidelberg, Fed. Rep. Germany

*H. G. Dehmelt*

Physics Department, University of Washington, Seattle, Washington, USA

Appl. Phys. 17, 123–129 (1978)

Due to a technical error, the following “*Note added in proof*” was omitted:

Optical cooling of Mg ions bound in a Penning trap was electronically detected recently by D. J. Wineland, R. E. Drullinger, and F. L. Walls: Phys. Rev. Letters **40**, 1639 (1978)
