

ERRATA

Coaxial Bolometric Head for Precise Power Measurements in the Range of 0.03-10 GHz by V. I. Krzhimovskii, V. V. Kshimovskii, and I. A. Sergeev [Measurement Techniques, No. 5, 554-556 (1967)].

On p. 555, the following changes should be made. On line 17, 300-3000 MHz should read 30-3000 MHz. On line 22, $96.4 \pm 1.0\%$ should read $98.4 \pm 1.0\%$. The graphs of Figs. 3b and c, and 5b and c should refer to the upper boundary frequency of the range (3 GHz and 10 GHz respectively).
