

Erratum

KING, G. J., 1986: A Taxometric Analysis of Seed Proteins in the Genus *Briza* s. l. (*Poaceae*). — *Plant Syst. Evol.* **151**, 163–174.

We regret that plates *a* and *c* of the original Fig. 5 have been left out. They are inserted here in full.

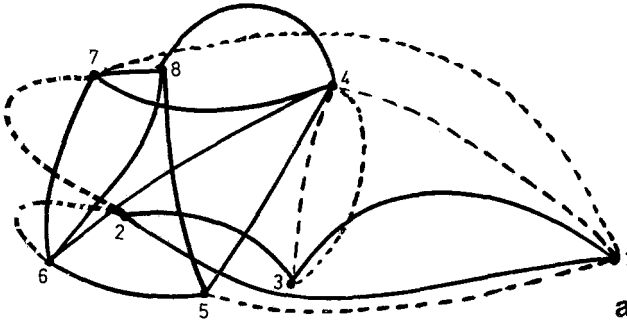

Fig. 5 a

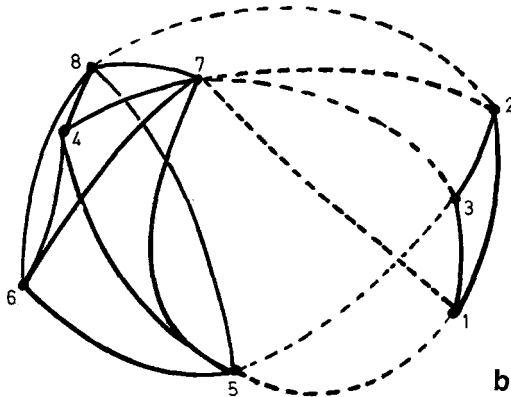

Fig. 5 b

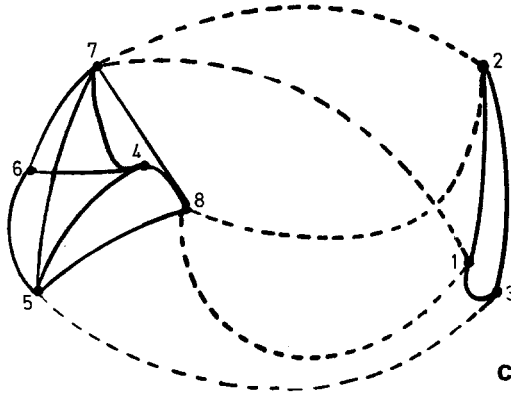

Fig. 5c

Fig. 5. Drawings of cluster webs: Three dimensional models were constructed from the data in Table 3. Each link represents the distance coefficient derived from the sum of squared euclidean distances between OTUs. All species-species linkages were built into the model, but only some are drawn for clarity. The numbers at each node correspond to those in Table 3. a) Cluster web from morphological characters, b) from binary scoring of polypeptide bands and c) from polypeptide data taking into account the relative heights of peaks
