

ANNOUNCEMENT

Effective with this issue (Volume 9, Number 1, February 1990), *Journal of Protein Chemistry* will be published in a **large-size format**. The journal will still publish the same amount (and more!) of high-quality peer-reviewed original research articles, reviews, and brief communications – all on the elucidation of the molecular basis for protein function, covering all types of protein activity and structure (enzymes, hormones, protein antigens, antibodies, receptors, etc.).

We believe the new, larger format will present papers in an attractive framework that readers, authors, advertisers, and subscribers will appreciate.

Due to the increased flow of excellent papers from research workers throughout the world, *Journal of Protein Chemistry* will be **expanding** in 1990, with the amount of information published *increased by 9%*. Thus, the subscription price for Volume 9, 1990 (6 issues) is \$245.00 (outside the U.S., \$285.00). The price for individuals certifying that the journal is for their personal use is \$42.00 (outside the U.S., \$50.00).

In summary, *Journal of Protein Chemistry* will publish more material and in a new attractive format, to serve the field even better. We thank you for your support.
