

ANNOUNCEMENT

2nd International Congress on Amino Acids and Analogues

The Conference is to be held in Vienna, Austria on August 5-9, 1991. Topics include: analysis, separation, synthesis, biosynthesis, nutrition, parental nutrition, cross linking amino acids, updating of tryptophan, amino acids, and the immune system (incl. AIDS), amino acids in sports medicine, racemization, modification of amino acids (e.g. methylation), new roles for arginine, neurochemistry incl. excitatory amino acids, food chemistry and technology (incl. radiated food amino acids), polyamines, renal physiology and amino acids, amino acids in nephrology, in gastroenterology, amino acids and behavior, inborn errors of metabolism, molecular biology of amino acids, therapeutic implications, pharmacology, amino acids as free oxygen radical scavengers, stable isotopes etc. Correspondence should be addressed to:

Dr. Gert Lubec
University of Vienna
Department of Paediatrics
Währinger Gürtel 18
A 1090 Vienna, Austria
Tel. (222) 23 40 424 or (222) 40 400 3229
Telefax (222) 40 400 3238
