

ERRATUM

Crystal and molecular structure of brianthein X.¹

In Table 2 the x -coordinate of C(22) is 0.9010, the z -coordinate of C(13) is 0.4566 and the x -coordinate of C(18) is 0.6245. To assume connectivity for all atoms, the x -coordinates of C(15) and C(16) should be increased by one unit.
