Minimal renormalization without ε-expansion: amplitude functions in three dimensions

H.J. Krause, R. Schloms, and V. Dohm

Institut für Theoretische Physik, Technische Hochschule Aachen, Sommerfeldstrasse, D-5100 Aachen, Federal Republic of Germany

In Table 1 there is a misprint concerning the numbers for the coefficient b_E. The correct numbers are $b_E = 21$ for $n = 1$, $b_E = 31$ for $n = 2$, and $b_E = 43$ for $n = 3$.
