Erratum

In the paper "Intracranial Mycotic Infections in Neurosurgical Practice" (*Acta Neurochir (Wien)* (1995) 137: 78–84) the following text on p. 83, left column, line 3, was typeset incorrectly by author's error: "With further studies at the Mycology Laboratory in Bristol, England it was . . .". It should read as follows: "With further studies

in the Mycology Laboratories at King Khalid University Hospital, Riyadh, and Colindale, London, it was possible to identify the pathogen in the four cases, and in four other cases from various countries in the Middle East, to be *Ramichloridium machenziei* [5]".
