

Erratum

Transmission Coefficients for Light Projectiles

K.H.N. Murthy, S.K. Gupta, and A. Chatterjee

Nuclear Physics Division, Bhabha Atomic Research Centre, Bombay, India

Z. Phys. A – Atoms and Nuclei **305**, 73–79 (1982)

In preparing the manuscript some errors have crept in. The required corrections are as follows:

1. In equation (11) of the paper the units should be $\text{MeV}^{-1} \text{fm}^{-2}$.
2. In equation (14), the plus sign should be replaced by a negative sign. This has been pointed out in an earlier Erratum.
3. Equation (16) should be supplemented by the following statement: $N_2=0$ when equation (16) yields negative values.
4. Table 3 contains two errors. The second column entries are E_{lab} not E . For the projectiles Tritons and Helium-3 the second target is ^{197}Au not ^{209}Bi .

We thank Jeff Templon of North Carolina State University for bringing to our notice the difficulties he encountered in using our work.
