

*Errata***Charged Hadron Multiplicities in High Energy $\bar{\nu}_\mu n$ and $\bar{\nu}_\mu p$ Interactions**

S. Barlag, P. van Dam, E. De Wolf, B. Jongejans, A. Tenner, C. Visser, R. Wigmans, P. Capiluppi, F. Fabbri, G. Giacomelli, G. Mandrioli, P. Mazzanti, A.M. Rossi, P. Serra-Lugaresi, M. Baldo-Ceolin, F. Bobisut, E. Calimani, S. Ciampolillo, H. Huzita, C. Angelini, L. Bertanza, A. Bigi, R. Casali, R. Fantechi, V. Flaminio, A. Nappi, R. Pazzi, C. Petri, G. Pierazzini, M. Bloch, T. Bolognese, J. Derkaoui, M.L. Faccini-Turluer, A. Fridman, C. Louedec, L. Mosca, J. Soudraix, D. Vignaud, D. Allasia, F. Bianchi, V. Bisi, D. Gamba, A. Marzari-Chiesa, L. Ramello, L. Riccati, A. Romero

Z. Phys. C – Particles and Fields **11**, 283 (1982)

The numerical values of A in Table 3, p. 290, are wrong and should be replaced by the following:

$\bar{\nu} p$	F	$A=0.28 \pm 0.04$
	B	$A=0.27 \pm 0.07$
$\bar{\nu} n$	F	$A=0.27 \pm 0.13$
	B	$A=0.68 \pm 0.10$

The Fig. 10 is correct.

Inclusive Production of Heavy Quarkonia in e^+e^- Annihilation

S.L. Grayson and M.P. Tuite

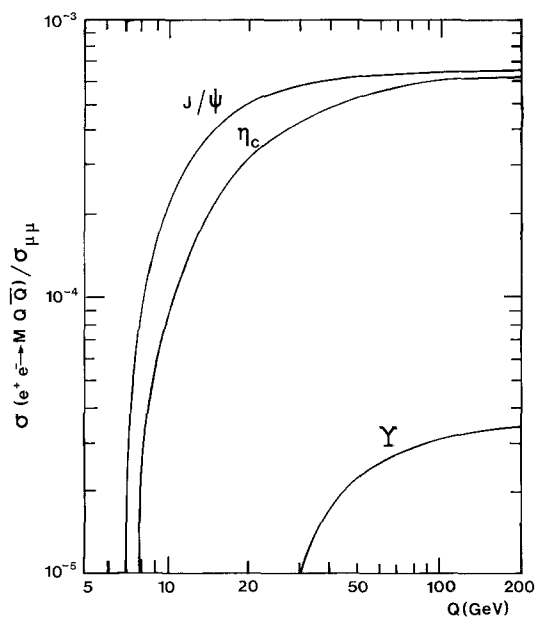

Z. Phys. C – Particles and Fields **14**, 157 (1982)

Figure 5 was wrong for $\sqrt{s} \gtrsim 80$ GeV because of an integration error. The corrected figure is shown here. No other results are affected. We thank L. Clavelli for pointing out this discrepancy (Argonne preprint ANL-HEP-PR-82-21).
