

IXTH INTERNATIONAL CONGRESS OF INFECTIOUS AND PARASITIC DISEASES MUNICH, JULY 20-26, 1986

The congress will be organized by the International Federation for Infectious and Parasitic Diseases (IFIPD) and the Deutsche Gesellschaft für Infektiologie in collaboration with the International Congress for Infectious Diseases (ICID).

Congress language: The official language of the Congress will be English. Papers in German or French, however, can be accepted. All slides have to be presented in English.

Congress site: Munich, Messegelände.

Industrial exhibition: This takes place during the congress.

President: Prof. Dr. W. Lang, Abteilung für Infektions- und Tropenmedizin der Universität, Leopoldstr. 5, D-8000 München 40.

Congress secretariat: Mrs. C. Schäfer, address as above. Tel. (0 89) 6 37 29 29

Congress office: COC-Kongreßorganisation GmbH, Berliner Str. 175, P.O.Box 6 96, D-6050 Offenbach 4, Tel. (0 69) 81 30 28. Telex 4 152 730 coc d.

International Scientific Committee (IFIPD and ICID)

J. Acar, France, E. Bengtsson, Sweden, S. Britton, Sweden, J. Januszkiewicz, Poland, E. H. Kass, U.S.A., W. Lang, FRG (President IFIPD), A. Mahmoud, U.S.A., H. Pichler, Austria, G. Visco, Italy, F. Waldvogel, Switzerland (President ICID)

Main Topics

(Preliminary Program)

Viral Infections

Human Retroviruses

Acquired Immune Deficiency Syndrome (AIDS), (W. R. Dowdle, L. Montagnier)

Viral Hepatitis (I. Gust, R. Thomssen, H. Purcell, M. S. Balayan)

Epidemiology of Hepatitis (G. Frösner, G. Papaevangelou)

Immune Response in Viral Hepatitis. Protective and Pathogenic Immunological Factors (G. R. Pape, H. C. Thomas)

Professor Yohei Ito Memorial Workshop on Retroviruses in Hematopoietic and Immune Diseases (R. C. Gallo, K. Takatsuki)

Immune Prophylaxis of Viral Hepatitis (M. R. Hilleman, J. Petricciani)

Antiviral Therapy in Chronic Hepatitis B infection (R. Müller, H. J. Eggers)

Hepatitis B-related Viruses in Animals (H. Will, W. Mason)

New Virus Infections (M. Horzinek)

Slow Virus Infections (V. terMeulen, H. Ludwig)

Rabies (L. G. Schneider, H. Koprowski)

Oncogenic Viruses (H. zur Hausen, H. Wolf)

Influenza (R. Rott, H. Meier-Ewert)

Local, Regional and Global Eradication of Virus Diseases (A. Mayr, M. M. Kaplan)

Modern Diagnostic Methods of Viral Infections (K.-O. Habermehl, L. R. Overby)

The Importance of Type Culture Collection (R. E. Stevenson)
New Approaches to Vaccines (other than Hepatitis) antiviral: (F. Assaad, H. Spiess) antibacterial: (R. Germanier, G. Wiedermann) antiparasitic (malaria): (H. Wernsdorfer, W. Lang) Antiviral Chemotherapy (H. Eggers)

Bacterial Infections

New Bacterial Infections (R. Ackermann, G. L. Mandell)

Staphylococcal Infections (G. Pulverer, J. Jeljaszewicz)

Endotoxins of Gram Negative Bacteria (O. Westphal, E. H. Kass)

Septic Shock of Gram Negative Bacteria (W. Marget, L. S. Young)

Leprosy (T. Godal, S. Britton)

Atypical Environmental Mycobacteria (K. F. Petersen, R. Urbanczik)

Chlamydial Infections (H. Meier-Ewert, G. L. Ridgway)

Campylobacter Infections: History and Outlook Centenary Celebration in Honor of Theodor Escherich's Original Description of campylobacter (J. P. Butzler, M. B. Skirrow)

Modern Diagnostic Methods in Bacterial Infections (R. Roos, K. Schopfer)

Mycotic Infections

Mycotic Infections (G. Medoff, Th. Wegmann)

Antimycotic Therapy (H. P. R. Seeliger, T. A. Stevens)

Parasitic Infections

Epidemiology of Parasitic Diseases (R. Gothe, G. Piekarski)
Progress in the Diagnosis of Parasitic Diseases (E. G. Kagan, H. M. Seitz)

Actual Problems of Chemotherapy and Chemoprophylaxis of Malaria due to *P. falciparum* (W. Peters, M. Dietrich)

Schistosomiasis (W. Mohr)

Leishmaniasis (E. A. Petersen)

Filariasis, Onchocerciasis (M. Greene, H. R. Taylor)

Actual Importance of Toxoplasmosis (H. Aspöck, G. Desmonts)

Immunology

Infections in Immunodeficient Patients (F. Waldvogel, J. Verhoef)

Neutrophilic Granulocytes in Host Defence (C. G. Gemmell, C. O. Solberg)

Immunity of Infection: Aspects of Immune Regulation and Antigen Recognition (N. A. Mitchison, G. Riethmüller)

Interferon: Its Role in Prevention and Treatment of Infectious Diseases (G. Riethmüller, P. H. Hofschneider)
