

Praefatio

From the start and for many years, *Experientia* had the good fortune of having as editors a group of remarkable men and scientists: R. MATTHEY, A. VON MURALT and L. RUZICKA. The new editors wish to thank their predecessors for making *Experientia* what it is to-day. We shall do our best to continue in the same style. In a period of scientific expansion we shall endeavour to maintain the interdisciplinary character of the journal as well as its scientific standard. In this context we hope that *Experientia* will continue to promote exchange of views within the broad field of all natural sciences.
