

keit rechnen dürfen. Wir glauben indessen, dass man in Veröffentlichungen Rf-Mittelwerte angeben und die Anzahl der zugrundeliegenden Einzelmessungen vermerken sollte.

Summary. Conditions are discussed which influence Rf¹ on thinlayer chromatograms, and directions are given to guarantee good reproducibility. Variance of Rf on thin-

layer chromatograms is of the same order of magnitude as on paper chromatograms.

CONGRESSUS

Switzerland

11th International Conference on High-Energy Physics

CERN, Geneva, July 4–11, 1962

Sponsored by International Union of Pure and Applied Physics (IUPAP).

Enquiries: Scientific Conference Secretariat (E. W. D. STEEL) CERN, Geneva 23 (Switzerland).

Great Britain

Third International Reinforced Plastics Conference

London, November 28–30, 1962

Previous conferences organised by the Federation were held in Brighton in 1958 and in London in 1960.

The organising committee is now inviting the submission of papers for the conference and will welcome suggested titles, with short synopses, for consideration. These should be sent to The British Plastics Federation, 47–48 Piccadilly, London, W.1.

An outline of the programme, and the exact venue of the conference, will be announced later.
