14th International Symposium on Chromatography

13–17 September 1982

The Chromatography Discussion Group in association with the Royal Chemical Society (Analytical Division), Arbeitskreis Chromatographie Der Fachgruppe Analytische Chemie Der Gesellschaft Deutscher Chemiker and Groupement Pour L'Avancement Des Methodes Spectroscopiques Et Physico-Chimique D'Analyse (G.A.M.S.) are holding the 14th International Symposium on Chromatography at the Hotel Inter-Continental, London, 13th–17th September 1982.

Associated with the Symposium there will be an Exhibition of Chromatographic and Ancillary Equipment which will be held at the nearby Grosvenor House Hotel as part of the Laboratory 82 Exhibition. Delegates to the Symposium will be admitted free to Laboratory 82.

Scientific Programme

The programme will comprise Plenary Lectures, Discussion Papers and Poster Sessions dealing with all aspects of Chromatography and Related Techniques. The language of the Symposium will be English.

Social Programme

The meeting coincides with the 25th Anniversary of the formation of the Chromatography Discussion Group and a Social Programme commensurate with the occasion will be available for Delegates and their Guests.

2nd Circular

Persons interested in attending the Symposium should ask for a form to be obtained by Dr. Ralph Stock, Chromatography Discussion Group, Trent Polytechnic, Burton Street, Nottingham NG1 4BU, U.K. They will then receive the 2nd circular, including the Programme and details of Hotel Reservations in February 1982.

Authors

An abstract of between 250–300 words will be required from Prospective Authors by 30th November 1981. These should be sent to Dr. R. Stock, address given above.

Abstracts of all Papers and Poster Presentations will be distributed in book form to all Delegates at the commencement of the Meeting.

The full Papers will be published in a special edition of the Journal 'Chromatographia' and a copy will be sent free to all Delegates.

Exhibition

Companies interested in exhibition space should send enquiries to: Curtis Steadman and Partners Limited
34–36 High Street, Saffron Walden, Essex, CB10 1EP, United Kingdom.

Erratum

to the contribution **Fluorinated Ligands in HPLC**

by A. Haas/J. Köhler/H. Hemetsberger
Chromatographia 14, 341–344 (1981).

By an unfortunate editorial mistake, two wrong photographs have been printed in the beside mentioned article. Please find below the correct Figures 6 and 7.

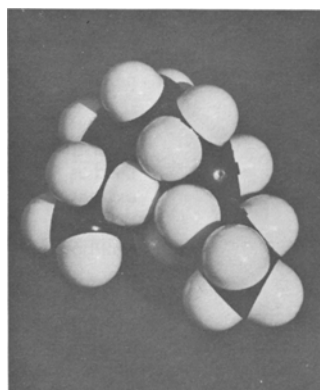

Fig. 6
Crowded n-C₁₀H₂₁-chain producing rather plain area.

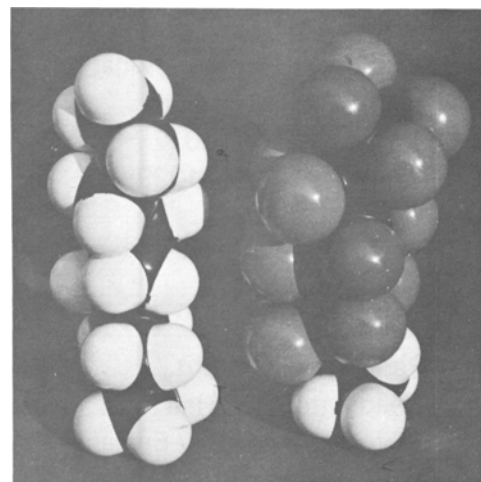

Fig. 7
Comparison of straight alkyl chain with fluorinated ligand which is unable to cluster.
