

## Progress in Chromatography (2nd Danube Symposium)

The 2nd Danube Symposium on Progress in Chromatography will be held in Carlsbad (Czechoslovakia) from April 18–20, 1979. The scope of the meeting will cover the following types of chromatographic techniques:

### A. Main topics

1. High-performance liquid column chromatography
2. Capillary gas chromatography

### B. Poster sessions

1. High-performance liquid column chromatography
2. Capillary gas chromatography
3. Instrumentation with special emphasis to automation

### C. Panels

1. Sorbents for chromatography
2. Automation
3. High-performance thin-layer chromatography
4. Isotachopheresis

The symposium is organized by Chromatography groups of the Czechoslovak Chemical Society together with the Institute for Analytical Chemistry and Institute of Physiology of the Czechoslovak Academy of Sciences and the Institute of Analytical Chemistry, Slovak Technical University.

Persons interested in participation in this symposium are requested to contact:

Dr. *Karel Macek*, Institute of Physiology CSAV, Prague 4, Budejovicka 1083, Czechoslovakia.

## 4th International Symposium on Column Liquid Chromatography

7–10th May 1979 in Boston, Massachusetts, U.S.A.

The 4th International Symposium on Column Liquid Chromatography will be held in Boston, Massachusetts (U.S.A.) from the 7–10th May 1979.

To be included in the program are invited lectures, submitted papers, and poster sessions in all areas of column liquid chromatography.

Persons interested in submitting a paper for consideration must send an abstract of approximately 300–600 words postmarked by September 15, 1978 to:

Professor *Barry L. Karger*, Chairman, Organizing Committee, 4th International Symposium on Column Liquid Chromatography, Institute of Chemical Analysis, Northeastern University, Boston, Massachusetts 02115.

A scientific committee will review all papers and make decisions as to which have been accepted for presentation by November 15, 1978.

A symposium volume is planned; papers will be due within two weeks after the symposium in order to assure inclusion in these proceedings.

In conjunction with the symposium, an exhibition of liquid chromatography instruments and accessories is planned. Firms interested in participating in this exhibition should direct their inquiries to:

*Nathan M. Goldberg*, Director, Department of Professional Development, Northeastern University, 110 Mugar, Boston, Massachusetts 02115, U.S.A.

## Erratum

zum Beitrag **Trennung von Organophosphor-Pestiziden und ihren Metaboliten auf Glaskapillarsäulen / Separation of Organophosphorus Pesticides and their Metabolites by Glass-Capillary Gas Chromatography**

von J. Hild / E. Schulte / H.-P. Thier  
*Chromatographia* 11, 397–399 (1978)

Leider hat sich in diesem Beitrag ein Fehler eingeschlichen:

Die Bildunterschrift zu Fig. 2 wurde mit der aus Fig. 3 vertauscht, d. h. Fig. 2 zeigt Parathion mit seinen Metaboliten; Fig. 3 Extrakt aus Spinat nach Zusatz von Demeton.

In the above mentioned paper a mistake occurred: the figure captions of Fig. 2 and Fig. 3 have to be changed, i. e. Fig. 2 shows parathion and its metabolites; Fig. 3 shows extract from spinach fortified with demeton.
