Dear Sir,

Please note the following Symposium in your Forthcoming events Section:

4th International Symposium

"Identification of Substances by Paper and Thin-Layer Chromatography" organized by Chromatography Group of the Czechoslovak Chemical Society and Laboratorio di Chromatografia of the Consiglio Nazionale delle Ricerche (Italy). The Symposium will take place in Frascati (near Rome), Italy, September 22-24, 1969.

Programme:

1. Introduction (by K. Macek, Prague)
2. Identification of Organic Substances
 21. Identification Based on Mobility (introduced by I. E. Bush, Richmond)
 22. Identification Based on Detection (introduced by E. Stahl, Saarbrücken)
 23. Reaction Before or During Chromatography, Formation of Derivatives (introduced by M. S. J. Dallas, Welwyn)
 24. Chromatography of Decomposition Products (introduced by J. Gasparic, Rybitvi)
 25. Combination with other Chromatographic Principles (GC, CC, electrophoresis) (introduced by J. Janak, Brno)
 26. Combination with other Physico-chemical Methods (Mass and IR-Spectroscopy, Elementary Analysis, Use of Computers etc.) (introduced by G. Szekely, Basel)
3. Identification of Inorganic Compounds (introduced by M. Lederer, Rome)

Since the Symposium has a definite working program, the number of participants will be limited to 110. In addition to a small number of invited members, priority will be given to those who intend to take part in the proceedings of the Symposium either by presenting a short original paper or by contributing to the discussion. Communications which concern the theme only marginally are not suitable.

Non-committal applications giving the title and a brief abstract or description of the paper or stating the subject on which a contribution to the discussion will be presented, should be sent by April 30th, 1969 to:

Dr. Karel Macek, c/o Istituto di chimica
Piazzale delle Scienze, 5, Roma, Italy

Chairmen:

K. Macek (Prague) I. M. Hais (Hradec Králové), M. Lederer (Rome)

Conferences Preview 1969

March, 2 . . . 7

Cleveland, Ohio, USA:

20th Pittsburgh Conference on Analyt. Chemistry and Applied Spectroscopy.

Information: W. M. Hickam, Westinghouse Res. Labs.,
Pittsburgh, Pa. 15235, USA

April, 8 . . . 11

Freiburg i. Br., Fed. Rep. Germany:

Meeting of "Fachgruppe Analytische Chemie in der GDCh"

Information: Gesellschaft Deutscher Chemiker, 6 Frankfurt/Main, Postfach 9075

October, 7 . . . 10

Lausanne, Switzerland:

5. Int. Meeting of Separation Methods; Column Chromatography.

Information: Sekretariat des Schweiz. Chemiker-Verbandes, CH-8050 Zürich, Falkenstr. 12, Schweiz

October, 13 . . . 23

Erlangen, Fed. Rep. Germany:

Course about Chromatography

Information: Prof. Dr. G. Hesse, Organisches Institut der Universität, D-852 Erlangen, Henkestr. 42

Institute of Petroleum Gas Chromatography Discussion Group

Liquid Chromatography Sub-group

Plans to hold a second Informal Symposium at the Institute of Petroleum, London on Thursday 27 March 1969 are in hand and several papers are being considered for presentation. Any members of the GCDG who would like to offer a paper on aspects of high efficiency liquid chromatography (adsorption, partition, gel permeation or ion exchange) are invited to submit a short synopsis to the undersigned for consideration. Applications papers would be particularly welcome.

S. G. Perry

Esso Petroleum Co. Ltd,
Esso Research Centre,
Abingdon,
Berks, U. K.

Erratum

Chromatographia 1, 483 (1968)

Characteristics of Separation on Porous Polymers

Authors of this paper:

K. Sakodynski, L. Moseva, Karpov's Institute of Physical Chemistry, Moscow
