

INFORMATION

Announcement

XIVth Congress of the International Primatological Society

The XIVth Congress of the International Primatological Society will be held from August 16 to 21, 1992 at the Congress Palast in Strasbourg, France. The host institution is the Société Francophone de Primatologie (SFDP). The official language of the congress will be English with an eventual translation from and into French.

So far, different symposia have been suggested on evolution, ecology, social behaviour, physiology, nutrition, genetics, and communication. Until now, none have been proposed in the field of biomedical or medical research which are important increasing fields. Therefore, the Scientific Committee would be grateful for further suggestions and for an early indication on your intention to participate in the congress and to contribute to the programme.

For further information, please do not hesitate to contact the organizing committee:

Dr. N. HERRENSCHMIDT
General Secretary of the XIVth IPS-Congress
