Corrections on p. 246–247.

   (1) Formula (3.19) should read:

$$\left. \begin{aligned} z &\to \lambda(z+aw)\,\delta^{-1}, \quad \delta = 1-2i\bar{a}-(r+i|a|^2)\,w \\ w &\to |\lambda|^2 w \delta^{-1} \end{aligned} \right\} \tag{3.19}$$

   (2) The displayed formula below (3.20) should read:

"... leads to

$$c_{43}(0) \to c_{43}(0) - \frac{2ia}{3}, \quad c_{52}(0) \to c_{52}(0) - 2i\bar{a}$$

so that $j = c_{52}(0) + 3\,\overline{c_{43}(0)}$ is unchanged."

   (3) The next formula should read:

$$\mathrm{Re}\,c'_{42}(0) \to \mathrm{Re}\,c'_{42}(0) - 4r.$$

These errors (of the second author) were observed and rectified by James Faran. These changes do not affect any other statements of the paper.
