

Errata

Analysis of $D2^d$: a *D*-region class I gene

M. L. Hedley, S. W. Hunt III, K. A. Brorson, J. S. Andris, L. Hood, J. Forman, and P. W. Tucker

Immunogenetics 29: 359–365, 1989

In the DNA sequence of $D2^d$ (Fig. 2), the last 19 As derive from the mRNA sequence, not from the genome.

In memoriam: M. R. Irwin

W. H. Stone

Immunogenetics 30: 1–4, 1989

Due to an unfortunate oversight, the name and address of the author of M. R. Irwin's obituary were omitted from print. They are: W. H. Stone, Department of Biology, Trinity University, San Antonio, TX 78284, USA.

Announcement

Eighth International Workshop on Alloantigenic Systems in the Rat

The Eighth International Workshop on Alloantigenic Systems in the Rat will be held in Prague, Czechoslovakia, on April 23–26, 1990. The Workshop organizer will be Professor MUDr Otakar Stark, Director of the Department of Biology, Charles University, Faculty of General Medicine, Albertov 4, Prague 2, Czechoslovakia. All those interested in attending should contact Professor Stark.
