## ERRATUM

In the paper by S.C. Goheen et al. entitled "The Prevention of Alcoholic Fatty Liver Using Dietary Supplements: Dihydroxyacetone, Pyruvate and Riboflavin Compared to Arachidonic Acid in Pair-Fed Rats" (*Lipids* vol. 16, no. 1, p. 43), line 3 of the abstract should read, "6-fold greater in these rats than in those fed an alcohol diet without the supplements (AA-). The liver . . . ."
