Erratum

In the review article, "Complications of Renal Tumor Embolization," by Drs. Lammer, Justich, Schreyer, and Pettek which appeared on pages 31–35 of Volume 8, the contrast agent employed was mistakenly identified. It is manufactured by Labora-

toire Gerbet, Boite Postale No. 15, 93601 Aulnay-sous-Bois CEDEX 16-24, rue Jean-Chaptal, FRANCE. In its diluted form it is composed of ioxaglate 50%, 160 I mg/ml. We regret the error.
