CORRECTIONS

Corrections to *Met. Trans.*, 1974, vol. 5.

Analysis of Vapor Deposition Processes, by J. Szekely and J. J. Poveromo, pp. 289-97.

Page 292

Eq. [14] should read:

$$E_{v, sd} = - D_{AA} \frac{dC}{dy}$$
$$C = \frac{PM}{RT}$$

Eq. [15] should read:

$$E'_{c, sd} [e^{E'_{c, sd} d} + 1] - 2e^{E'_{c, sd} d} = -\psi$$

Page 296, Nomenclature

E should be defined as a mass flux, not as molar flux.

Low Cycle Fatigue Behavior of Ni-Cr Lamellar Eutectic Composites at Elevated Temperatures, by M. Doner, J. C. DiPrimio, and E. I. Salkovitz, pp. 433-39.

Page 438

In Fig. 12(a), "2a" should denote the major and "2b" the minor axis of the elliptical cavity.
