Editor's Note: Whereas the JPE editorial and production staff make every effort to preserve the integrity of each author's work, the occasional error occurs. In Vol. 18, No. 1, p. 111 of the Supplemental Literature Review addenda for the Ca-I diagram, the incorrect diagram, that of Ca-Br, was imported. The correct diagram is printed below.

This diagram replaces the Supplemental Literature Review diagram for Ca-I printed in Vol. 15, No. 3, p. 364.

Also in Vol. 18, No. 1, p. 106 of the Supplemental Literature Review "Fe-Nd (Iron-Neodymium)," conversion resulted in an alteration of the wt.% scale. The diagram is shown below with a correct wt.% scale. The staff extends sincere apologies to Dr. Okamoto.

Fig. 1 Fe-Nd phase diagram.
