

Page 88:

Figures 12 and 13 should be:

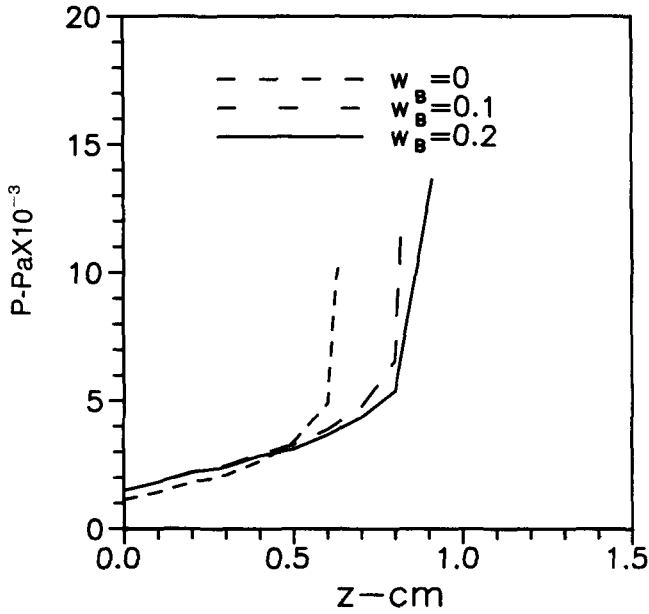

Fig. 12—Total vapor pressure distributions for different weight percents of volatile alloying element ($Q = 3$ kW, $U = 2$ cm/s, $\beta = 0$, and $f = 0$).

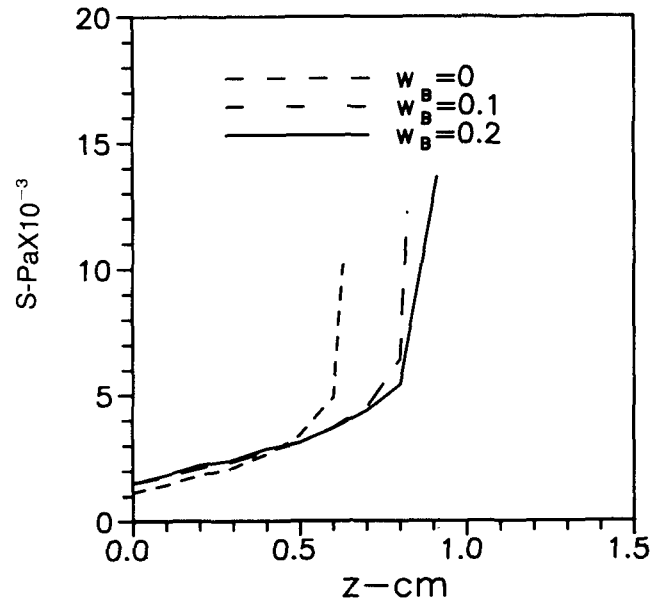

Fig. 13—Surface tension pressure distributions for different weight percents of volatile alloying element ($Q = 3$ kW, $U = 2$ cm/s, $\beta = 0$, and $f = 0$).
