Scattering of Plane Electromagnetic Waves by Radially Inhomogeneous Infinite Cylinders.

S. N. SAMADDAR

Raytheon Company, Space and Information Systems Division - Sudbury, Mass.

The following corrections should be made to this paper:

1) The signs on the right-hand side of the equations (6a), (6b), (7a), (7b), (7d) and (7e) should be changed.

2) The factor $(d/dp)\,\varepsilon(\varrho)$ appearing in equations (6a), (7a) and (7d) should be replaced by $(d/d\varrho)\ln\varepsilon(\varrho)$.

3) In equation (28) the factor η should be omitted.
