IL NUOVO CIMENTO VOL. 89 B, N. 2 11 Ottobre 1985

Axiomatic Deduction of Equations of Motion in Classical Electrodynamics.

E. COMAY

Department of Physics, Tel-Aviv University - Tel-Aviv, 69978 *Israel*

(*Nuovo Cimento B,* **80**, 159 (1984))

I) Equation (4) should be replaced by

$$\partial_\lambda F_{(e,w)\mu\nu} + \partial_\mu F_{(e,w)\nu\lambda} + \partial_\nu F_{(e,w)\lambda\mu} = 0 .$$

II) Equation (13) should be replaced by

$$\partial_\lambda F_{(m,w)\mu\nu} + \partial_\mu F_{(m,w)\nu\lambda} + \partial_\nu F_{(m,w)\lambda\mu} = 0 .$$

III) The word « proportional » on p. 165, three lines after eq. (23), should be replaced with the word « related ».
