(Nuovo Cimento, 33 B, 519 (1976))

In this paper there are two misprints: The factor $(\mathbf{n} \cdot \mathbf{u}_1)^2/r$ should be replaced by $(\mathbf{n} \cdot \mathbf{u}_1)^2$ in eq. (3.2). Moreover, in the last line of Appendix the factor G^2 should be replaced by G^3 .
