## On the participants from projectile and target nuclei in relativistic nuclear collisions

AL. JIPA

Nuclear Physics Departments, Faculty of Physics, University of Bucharest P.O. Box MG-11, R-76900, Bucharest-Măgurele, Romania

(Nuovo Cimento A, 108 (1995) 1271)

In formula (1) on page 1272 number 3 should be substituted by number 8 to read

$$Q_{\mathcal{S}} = \frac{h(8r_1^2 + 8r_2^2 + h^2)}{8r_0^3}$$
