
Endocrine Pathology (Vol. 10, No. 2, Summer 1999)

Fatal *Aspergillus fumigatus* Septicemia
in a Patient with an Ectopic ACTH-Producing
Neuroendocrine Pancreatic Tumor

**Rainer Grobholz, Walter Back, Tudor Pörner,
Georg Ertl, and Uwe Bleyl**

An incorrect figure caption was printed in this article. The correct caption is as follows:

Fig. 2. Neuroendocrine pancreatic tumor consisted of cuboid cells and a well vascularized stroma. Diffuse grey cytoplasmic staining of adrenocorticotrophic hormone is present in the cytoplasm of tumor cells {Indirect immunoalkaline phosphatase method [Envision (R), DAKO, Hamburg, Germany], counterstained with hematoxylin}. Magnification $\times 100$.
