ERRATA-CORRIGE

G. BERNARDINI: **Lectures on Photoproduction.** *Supplemento al Vol. II, Serie X del Nuovo Cimento*, N. 1, 1955, 2° Semestre, pag. 104-138.

Because of a combination of circumstances and mainly because of the author's fault the galleys of this article have been revised only by the Editor's reviser. He did an excellent job and the author wants to express his appreciation to him. However few confusing misprints remained mostly in tables and formulae. Some of them are listed below.
