e23 Unusual Presentation of An Iatrogenic Esophageal Perforation in A Newborn

Santosh Kumar Singh, Sunil Taneja and Rupa Dalmia Singh

Madhuraj Nursing Home, Kanpur, UP, India.

Abstract. Spontaneous rupture of esophagus (Boerhaave's Syndrome) in neonates is a rare occurrence. However iatrogenic perforation of the esophagus is not that uncommon, especially in a premature. The presentation of esophageal perforation is rather stereotyped. In the present case however patient presented with unusual features.
