

**The Simple and Strict Interconnection
between the Observed Resonances and Dips in pp and $\bar{p}p$ Scattering.**

R. ODORICO

*Istituto di Fisica dell'Università - Trieste
Istituto Nazionale di Fisica Nucleare - Sottosezione di Trieste*

(Lettere al Nuovo Cimento, 2, 835 (1969))

On p. 836, in the footnote (*) delete the sentence

« A simple additive structure for the poles is not consistent, because would imply discontinuities in their residues at the crossing point ».

An Erratum and Addendum to ref. (1) is published in the preceding pages.
