PACS 99.10 – Errata.

Formula (8) is incomplete and has to be supplemented by one more column on the right-hand side, namely

$$+ \left\{ \begin{array}{c} \text{---} \\ \text{---} \\ 1 \\ 1 \\ \text{---} \end{array} \right\},$$

which means adding one more vector field and one more Weyl field.

Moreover, in line 22 the word «decuplet» is to be replaced by the word «11-plet».
