PACS. 12.90. - Miscellaneous theoretical ideas and models.

PACS. 99.10. - Errata.

In eqs. (3.7) and (A.6) the factors  $m^2$  should be replaced by  $m^3$ .

Equation (4.13) should read

$$|\Phi(\mathbf{X})| < \|\mathbf{f}_s^m\| \|\Phi_m\| = \|\mathbf{f}^m\| < [m^3(2\pi)^{-3}]^{\frac{1}{2}},$$

and  $m^3(2\pi)^{-3}$  should replace  $2m(2\pi)^{-3}$  in the sentence following that equation.

Equation (5.14) should read:

$$\mathcal{P}_{04} = -\mathcal{P}_{40} = 1, \quad \mathcal{P}_{j1+4} = -\mathcal{P}_{1+4j} = -1, \quad j = 1, 2, 3.$$

In eq. (A.2)  $m^2 + \mathbf{k}^2$  should replace  $1 + \mathbf{k}^2$ .
